PROFILE

Front-End Developer with 3 years of professional experience specializing in Vue.js and Nuxt.js. Strong background in building scalable, user-focused web applications with modern UI/UX standards.
Experienced in collaborating with cross-functional teams, integrating RESTful APIs, and managing
state using Pinia. Familiar with Agile/Scrum workflows and version control using Git.
Additionally, I have a growing interest and basic knowledge in AI and Object Detection technologies,
aiming to expand my expertise in intelligent web applications.

WORK EXPERIENCE

Front-End Developer

PROJECTS

Liparex **– Online Cryptocurrency Exchange**
Jan 2025

Skills: Tailwind Css, VueJs, Javascript, Git, Css, HTML5

- Developed and optimized user interfaces for crypto trading, wallets, and transaction dashboards using Vue.js and Tailwind CSS.

- Integrated RESTful APIs and managed complex application states using Pinia.

- Collaborated closely with backend and product teams in an Agile/Scrum environment to deliver secure and scalable features.

- Improved UI responsiveness and performance for real-time financial data.

https://ejourney.ir Front-End Developer
